## The Application of packaging bags

Dried food

Cosmetics

Daily necessities

Coffee bean

Pet food

Crop

Tea leaves

Snack

1. Biodegradable packaging bags are environmentally friendly bags that are very versatile. Mainly used for packaging: coffee bean, coffee powder, Tea leaves, Rice, dried fruit, snack food, dried meat, whole grains, tea, etc.
2. Four side seal pouch is easy to be vacuumed, suitable to pack crop, such as wheat packaging bags, barley packaging bags, maize packaging bags, rice packaging, rye packaging, cereal grain packaging, staple food packaging, flour packaging, fodder packaging, steamed bread packaging, cookie packaging, breakfast cereal packaging, sorghum packaging, millets

---

packaging, bran packaging, chaff packaging.

3. It's time to change your plastic packaging bags to biodegradable packaging bags. Less pollution to the environment, more green to the world.

### The Picture of biodegradable valve for the packaging bags

1. In the market, 99.9% of the air valves are made of PE plastic, and it takes 1000 years to completely degrade. It is a great harm to the environment. However, the PLA air valve is made of plant material and can be degraded in the soil within 2-3 years. Become water and carbon dioxide absorbed by plants.

2. It is technically difficult to make an air valve from PLA. This technology is in the hands of a very

small number of manufacturers, OEMY company is one of them.

The steps of our sales and production.

1.OEMY company is specialized in offering bio-degradable packaging solutions for different products.

2.Client is our first priority . We are dedicated to meeting clients. Demands and putting much resource into R&D. Our mission is to provide the right product and service for our clients.
