
China supplier of square bottom packaging with compostable zipper and air valve

Product Description

China supplier of square bottom packaging with compostable zipper and air valve

1. China supplier of square bottom packaging with compostable zipper and air valve
2. This is not only a packaging bags for coffee . It's carrier of your company's brand, mobile advertising and value communication to your customers. The most importance is that it is environmentally friendly.
3. What is eight -side -seal packaging bags?

Eight-side-seal packaging bag get its name from four-side-seal of the body , and four-side-seal square bottom, making the square bottom to be completely flat

It may also be referred to as a box pouch because it resembles a box from the front. This format is an improved variation of the standard stand up pouch. The main difference is that it has five panels sealed together giving you more presentation area. Because the pouch is flexible, it can take up less

room in a crowded cupboard space than a rigid format.

- 1.The packaging bags made of PLA+PBAT+Kraft paper, which is compostable materials.
- 2.When the packaging bags are out of use, they can be degraded into soil within a year and absorbed by plants. It's really come from nature and return to nature.
- 3.No more pollution to the environment. The world will become better and better.

The detail data of the biodegradable packaging bags

Item	China supplier of square bottom packaging with compostable zipper and air valve

MOQ:	10,000pcs
Price:	Based on the product Materials, Dimension, Quantity, Printing colors and other customer's Requirements (Price posted for reference only)
Payment:	T/T, Paypal,Western Union, Trade Assurance accept
	30% bag cost+100% printing cylinders charge as deposit,70% balancebefore shipment
Sample:	1). Free & Nice stock samples offered just freight collect
	2). Custom samples 7-15 working days (Send by Express)
	3). Refund Part/Full sample fee after deposit received
Lead Time:	15-20 working days after design confirmed.
Port of loading:	Huangpu /Shenzhen/, or As per your requirement
Packing:	Export standard packaging cartons/boxes(≤ 25Kg),as per customized packaging

The Feature Pictures of Biodegradable Packaging Bags

Strong square bottom, with large carrying capacity. keep every pouch standing up like trained soldiers

Strong gusset
side, more
space to pack
your products.

This type of easy zipper also can be made of compostable materials.
Easy to open , and easy to press to reseal.

The special feature of the biodegradable packaging bags for dried food.

1. High quality kraft paper, biodegradable PLA+PBAT film, it's environmentally friendly and great value.

2. Accurate text printing, correctly delivering advertising information

Professional color printing without any overflow

3. The tightly zipper, made of PLA, which can be opened and closed repeatedly,

Guarantee the tightness of the bag. Can be degraded in the soil

4.Strong square bottom , with large carrying capacity. keep every pouch standing up like trained soldiers

5.Strong tensile. The packaging bag with good tear resistance and durable

6.Biodegradable air valve, made of PLA too, environmental friendly air valve for coffee bags

7.Strong gusset side, more space to pack your products

8.Excellent waterproof performance

The bag is waterproof and moisture-proof, and it is easy to cope with the low temperature and wet season.

9.High quality ECO friendly packaging bags for nuts packing. No more pollution to the environment, more clean to the world.

10.Why choose a square-bottom bag?

This highly desirable square-bottom bag offers incredible shelf stability due to its sturdy, level bottom. Because the base is flat and secure the flat-bottom bag is the ideal packaging solution for many consumer products such as cereal, rice, coffee, tea or pet food. Premium brands in the pet food, sports nutrition, grains and coffee market sectors are trending rapidly towards this packaging format.

11.Maximize your packaging marketing real estate and take advantage of all five panels to display your brand and product information!

The Picture of biodegradable valve for the packaging bags

1.In the market, 99% of the air valves are made of PE plastic, and it takes 1000 years to completely degrade. It is a great harm to the environment. However, the PLA air valve is made of plant material and can be degraded in the soil within 2-3 years. Become water and carbon dioxide absorbed by plants.

2.It is technically difficult to make an air valve from PLA. This technology is in the hands of a very small number of manufacturers, OEMY company is one of them.

The recommended size of side packaging bags

Size (W*H*Bottom cm)	Seed Package	Flour Package	Pet Food Package	Rice Package
